

NUESTROS NEGOCIOS

NEW STIPEND PROGRAM FOR SMALL BUSINESSES IN OREGON!

In partnership with the Oregon Latinx Leadership Network, the Nuestro Negocios project with PCUN is providing a stipend fund for small Latinx businesses and communities of color located in Oregon.

This stipend is purposed for businesses to attend workshops or seminars to improve their business and access resources while at the same time to receive compensation for their time.

We know that Latinx businesses have been one of the most affected by COVID-19 with little to no access to resources. Our goal with this program is for small businesses to gain access and knowledge on the information and resources that are coming out during these unprecedented times.
